

**Advanced Collagen Stimulation,
Performed by a Physician**

**Potenza RF Microneedling + Sculptra® –
Build Your Skin's Own Volume Naturally**

Actual Discovery Skinworks patients

Breakthrough Skin Rejuvenation.

Achieve naturally firmer, smoother skin with our exclusive Sculptra® + Potenza RF Microneedling treatment. This innovative protocol stimulates your skin's collagen production, delivering youthful, radiant results - without injections or artificial volume.

No Fillers. No Injections. Just Real Results.

Skip the fillers. Our proprietary Fusion Tip technology infuses Sculptra® directly into the skin through RF Microneedling, encouraging collagen growth at the deepest layers, creating long-lasting, natural rejuvenation with zero injections.

Customized for you.

Each treatment is tailored to your unique skin concerns - whether it's under-eye hollows, fine lines around the mouth, acne scars, stretch marks, or something else. Expect continuous improvement over time as your skin naturally restores its strength, elasticity, and youthful appearance.

Reverse Signs of Aging Where It Shows Most

See Visible Improvement in Skin Tone, Texture, and Firmness - Backed by Science, Performed by Physicians

Our Sculptra® + Potenza RF Microneedling Protocol combines two of the most advanced, science-backed treatments for a comprehensive skin rejuvenation experience. This powerful combination works synergistically to stimulate your skin's natural collagen production, leaving you with firmer, smoother, and more youthful skin.

What Makes This Treatment Unique?

- No Injections, No Artificial Fillers: Achieve real, natural results without the added artificial volume of fillers or injections.
- Stimulate Collagen Naturally: Sculptra® helps your body naturally build collagen, while Potenza RF Microneedling boosts collagen production and tightens the skin.
- Tailored to Your Needs: Whether you're addressing under-eye hollows, fine lines, acne scars, stretch marks, or skin laxity, this treatment is customized to your individual goals.
- Lasting Results: Unlike quick fixes, this treatment offers long-term rejuvenation and continuous improvement over time.

What It Addresses:

- Under-eye hollows and facial lines
- Lines around and above the mouth
- Acne scars and uneven texture
- Skin laxity on the face and body (including neck, hands, elbows, knees, and more)
- Stretch marks

Other areas may be eligible based on your skin goals and will be evaluated during your physician consultation.
